## EDUCATION

Computer Science Engineering	2022-26	VIT University	85.8%	-
CBSE (Class XII)	2021	St. Clare's High School, Agra	90.6%	16th
CBSE (Class X)	2019	St. Clare's High School , Agra	91.6%	19th

## INTERNSHIP/S

Sales and Marketing Intern, **Semantics Cybernetics LLP**, Bhopal (Remote)

May 2023 – June 2023

Semantics Cybernetics LLP - solution for launching and scaling your new ecommerce brand in India & beyond

- Assigned to increase the number of lead generation, data cleaning and processing, Excel management
  - Developed 40+ sales lead in support of business efforts
- Assisted the team in developing front-end of Web Applications for customers.
  - To ease the work load on Dev team, I contributed in developing front end, as a fresher developer.

### *Professional Recognition*

- I got Certificate of Completion and was offered full time work for Web Development Team.

## ACADEMIC PROJECTS

- E Voting System Using Blockchain:** Developed a decentralized voting system using Ethereum block chain and smart contracts to ensure secure, transparent, and tamper-proof and multi factor authenticated sign-in using biometric authentication; I worked in building Block chain smart contracts, connecting it using Metamask wallet, then also handled database management; Built a web application system to strengthen voter verification and prevent unauthorized access and delivering results 90% faster.
- Olympic Data Analysis:** Built an interactive web dashboard to explore 120 years of Olympic Games data, enabling dynamic filtering and data visualization by year, country, and sport; provided insights into medal trends, athlete participation, and sport-wise performance using real-world datasets; performed extensive data cleaning, processing, transformations purely using Python and its libraries.
- Traffic Forecasting using GCN-LSTM Model:** Developed a GCN-LSTM-based ML model to predict real-time traffic conditions and optimize vehicle flow; I worked on building stellar graphs to analyze the performances of the different models and also the traffic flow rates of other cities; Outperformed traditional models by leveraging graph-based spatial relationships and sequential learning techniques; demonstrated a potential 15–20% reduction in peak-hour traffic delays in cities where the dataset was collected

## ACADEMIC ACHIEVEMENTS AND AWARDS

- Deloitte Data Analytics Job Simulation on Forage
- Microsoft – Business Analytics with Excel on Simplilearn

## POSITIONS OF RESPONSIBILITY

- President, Defense Warriors Club, VIT Bhopal University - 2024-2025**
